

# CERAMIC COATING

## TECHNICAL DATA SHEET

**REFERENCE:** #35002  
#35004

**Sizes:**

**DURABILITY SCALE**

**GLOSS SCALE**

### TECHNICAL DATA:

- Flash Point: 112-119 F (44 - 48 C)
- Appearance: Clear, Colorless
- Physical State: Liquid
- Odor: Peppermint / Characteristic
- Specific Gravity: 0.95 g/cm<sup>3</sup>, 7.92 lb/US Gal @ 25 C

### DESCRIPTION:

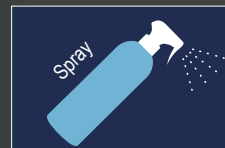

CERAMIC SPRAY COATING is a transparent, nano crystalline coating delivered in a spray detailer that protects your vehicle from weather, chemicals, and UV rays while repelling water, dirt and other contaminants. CERAMIC SPRAY COATING applies a hard, durable coating that is 2 microns thick and imparts a deep, reflective shine CERAMIC SPRAY COATING has been formulated to safely work via trigger spray and impart the same protective characteristics as a typical ceramic coating but in an easier to use application. USE on, All Painted surfaces, boats – gel coats, glass, plastic, rubber, showers, metals.

### DIRECTIONS OF USE:

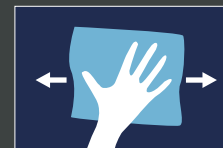

Apply to the surface directly or to a microfiber towel and wipe on. Ensure a shaded area, shake the spray bottle. Allow the product to cure for 30 seconds or until it 'rainbows' in appearance. Simply wipe with a quality microfiber towel, flipping the towel regularly, until no rainbow appearance exists and all excess product has been worked into the paint. Repeat as many applications as desired, 1 hour between coatings. Do not use on a wet or dirty surface. Tip: Between uses remove the spray head, purge and replace the cap.

1. Shake well before use.

2. Spray on surface.

3. Use correct applicator to wipe off or to buff.

### HEALTH & SAFETY

Can cause eye irritation. Excessive inhalation may cause respiratory irritation. Ingestion can cause gastrointestinal irritation. Prolonged skin contact may cause slight irritation. Harmful if swallowed. Eyes: Flush with water for 15 minutes, call physician if irritation persists. Inhalation: Remove to fresh air, call physician if irritation persists. Ingestion: Do not induce vomiting, call physician.
